ARAVA GENDELMAN

INDUSTRIAL ENGINEERING & MANAGEMENT GRADUATE | AI & DATA

054-218-3063 | ARAVA2000@GMAIL.COM | RAMAT GAN | ARAVAG2408.GITHUB.IO

IE&M graduate who uncovers the real problem, analyzes the data and turns it into actionable plans and working solutions. Former Home Front Command operations officer during COVID-19 and national emergencies.

EDUCATION

2022 – 2026 **B.Sc. in Industrial Engineering and Management -** Technion
GPA: 88 (to date); Dean's List twice; Minor in Economics.
Specialization: Information Systems, Data Engineering, Game Theory.
Coursework: Statistics, Machine Learning, Operations Research, Big Data.

2014 – 2018 **High School Diploma with Honors -** Blich High School

WORK EXPERIENCE

2026 – present **Freelance Project Lead – AI-Assisted Educational Publishing**
- Independently turn a publisher's requirements into an AI-supported workflow for a teacher's guide series, coordinating authors and automating quality checks; saves about one month of work per book.

MILITARY EXPERIENCE

2022 – present **Captain (Reserves), Home Front Command**

2020 – 2022 **Operations Officer – HQ, Home Front Command**
- Turned command-level objectives into actionable plans with Israel Police, MDA, Fire & Rescue, all Home Front Command districts and IDF professional departments.
- Aligned priorities with senior government and emergency stakeholders.
- Ran the operations center in crises; guided my units, who in turn guided partner organizations.
- Awarded **Outstanding Officer** for excellence in command-level planning.

2019 – 2020 **Foreign Liaison NCO**
- Coordinated joint activities and official visits with the U.S. National Guard.

SELECTED PROJECTS

- **SugarBuddy – Full-Stack AI App for Type 1 Diabetes:** Built most of it (78% of commits; ~735 tests): glucose alerts and an AI agent that explains causes; moved it from Azure to a $0 stack when funding ended.
- **AchvaLens** (Link): Built an AI tool for a nonprofit client (Achva LGBT) that flags harmful LGBTQ+ language in academic texts; raised accuracy from 63.6% to 69.8%.
- **Mercury – Privacy Risk Audit of an AI Medical Chatbot:** Showed 18 of 20 test patients' private details could reach other users; traced the root cause and recommended fixes mapped to GDPR.
- **Democracy Game (Technion & BIU Research):** Analyzed 42 participants' decisions, showing values shift with context; built an AI grader for 480 answers that matched expert agreement.
- **Between the Lines – Hackathon, Israeli Center for Educational Innovation:** Helped define the problem and solution with the partner, then built the app, which boosts teacher motivation through recognition.

SKILLS

Data & Analysis: Python (pandas, scikit-learn, statsmodels), SQL, statistical modeling, data visualization.
AI: LLM applications, AI agents, NLP, prompt optimization, LLM evaluation.
Business: Requirements analysis, solution design, process optimization, stakeholder management.
Tools: Excel, PowerPoint (used extensively as an operations officer).
Languages: Hebrew – native; English – fluent.
